DETAILED ACTION

Status of Claims

Claims 1-12 remain for examination wherein claim 1 is amended.

Claim Rejections - 35 USC § 112

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite (with respect to the term "higher") for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention as generally set forth in the first office action mailed on 10/19/2007 stands.

Claim Rejections - 35 USC § 102

Claims 1-2, 4-7 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,168,895 to Metz et al. as generally set forth in the first office action mailed on 10/19/2007 stands.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,234,466 to Takahashi et al. as generally set forth in the first office action mailed on 10/19/2007 stands.

Response to Arguments

Applicant's arguments filed 01/21/2008 have been fully considered but they are not persuasive.

Regarding 35 USC § 112 rejection, applicants argue that contents (page 11, lines 4-6, page 14, lines 1-9 and page 18, lines 19-25 of the specification) is sufficient to overcomes the rejection. The Examiner respectfully submits that the above contents do not define the pigment or pigment (A) concentration in the subsequent application and in the solid pigment preparation.

Regarding rejection of '895 and '446, applicants argue that the instant application has a higher gloss than that of the prior art. The Examiner respectfully submits that the examples that applicant used to show the difference are not based on the prior art of record. Furthermore, it is noted that the features upon which applicant relies (i.e., gloss) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). With respect to the product by process argument, applicants has not fully demonstrated clear differences in the claimed product when compared to the products of the references.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
